"We create
setting,
you share the
memories"

These sailcloth tents distinguish themselves by the translucent character of the sailcloth and their different shapes. Most of all because of excellent craftsmanship, as they are handmade by specialized sailmakers.

ALTERA SILLHOUETTE tents can carry high winds up to 120 km/h.

ALTERA SILLHOUETTE tents can be fully closed with an easy-to-adapt sidewall system, where you can choose between clear and/or solid sidewalls. This makes it easy to heat or air condition the tent.

The wooden poles are laminated pine wood, which makes them ultra strong, and they are coated with a rustic varnish to protect them.

On top of the center poles, there is an option to install unique pennant flags, that can also be personalized.
